See below for a contents description.

RADIO MICROPHONES KIT DESCRIPTION

Trantec Kit contains the following: 8 channel set of Trantec 3500 VHF series with TS259 personal mics. All programmed with the best available frequency plan using both the deregulated and shared license VHF frequencies.

The Yellow System

This consists of the Yellow System 4-channel receiver rack plus two aluminum briefcases containing:

	Quantity	Description
Yellow System Aerial Kit	2	"Fishtail" receiver aerials
	2	5m BNC TO BNC aerial cables (in lid)
	2	Multipurpose mic arms (for mounting aerials)
	1	User guide
	1	Manufacturer's manual
Yellow System Transmitter Kit	4	Handheld transmitters with stand clips
	4	Body pack transmitters
	4	Transmitter tie-on pouches
	5	Personal microphones with clips (in pencil case)
	8	AA alkaline batteries (in pencil case)

The Blue System

This consists of the Blue System 4-channel receiver rack plus two aluminum briefcases containing:

	Quantity	Description
Blue System Aerial Kit	2	"Fishtail" receiver aerials
	2	5m BNC TO BNC aerial cables (in lid)
	2	Multipurpose mic arms (for mounting aerials)
	1	User guide
	1	Manufacturer's manual
Blue System Transmitter Kit	4	Body pack transmitters
	4	Transmitter tie-on pouches
	5	Personal microphones with clips (in pencil case)
	4	Headset microphones
	8	AA alkaline batteries (in pencil case)

All three sets come as flight cased packages with aerial DAs etc and 3m XLR breakouts for the receivers, so it should just be plug and go in most circumstances.

The Trust holds the standard PMSE/JFMG shared use licences.
